

Building Teaching Skill: Performance Revisited

Exercise 1: Round 2 of Live Coding

- Get back into the same groups you did your live coding with. Take turns re-teaching your chosen live coding session, making sure to incorporate changes based on the feedback you received.

Give feedback to each other and add it using our 2x2 matrix. Also add some feedback on the following questions: What did you change? Did it work better or worse with the change? How might you do it if you were to teach it again?

Summary

- We have practised both giving and receiving feedback
- How do you feel when you give/receive negative feedback?
- Constructive criticism
- (Reflective) practice makes perfect!
